IMPROVED DESIGN

Nothing beats the instant feedback and satisfying ‘PING!’ when a well-aimed shot hits a steel target. The Champion® Center Mass™ AR500 Steel Targets are designed for years of fun at the range. The AR500 Steel is hard enough to withstand multiple calibers at the appropriate distances. The targets also come in three different shapes and sizes, allowing for a customizable shooting experience. Hearing is believing with Champion® Center Mass™ AR500 Steel Targets.

DuraSeal® targets are made from Champion®'s revolutionary material, a nonmetal, self-sealing product that lets bullets pass through with minimal damage. DuraSeal® dramatically prolongs the life of the target and extends your shooting enjoyment. It easily handles punishment from small and large caliber rimfire or centerfire rifles and handguns while keeping its shape and begging for more. Champion®'s innovative DuraSeal® technology is simply the most rugged and durable target material on the market today.

DURASEAL® CRAZY BOUNCE® TARGETS

These wild targets allow you to practice moving your aim as it darts in any direction when struck.

43804	DuraSeal® Crazy Bounce Star

DURASEAL® WOBBLE TARGET

The wobble design utilizes a weighted-round bottom providing an easy-to-see rattling and rolling reaction when struck.

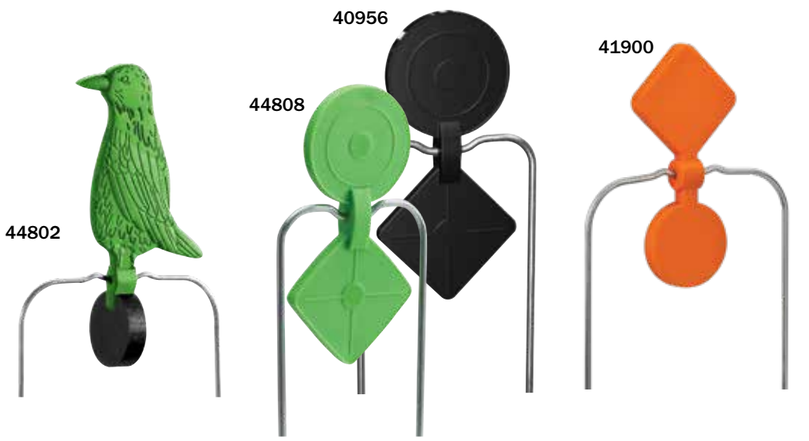

44884	DuraSeal® Wobble

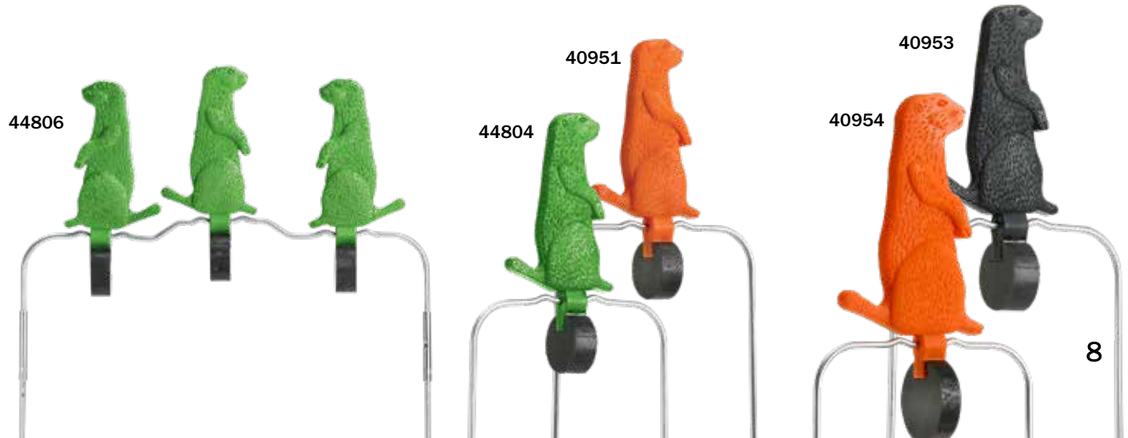

DURASEAL® SPINNER TARGETS

DuraSeal® self-sealing, hole-closing material lets bullets pass through with little damage to the target prolonging the life of the target. DuraSeal® is constructed to absorb hundreds of rounds from even the largest rifles and handguns while retaining its shape. Weighing 80% less than metal targets, these spinning targets are extremely reactive so you can see every time your shot impacts the target.

VisiColor®

Punching paper has never been more fun than with Champion®'s VisiColor® and VisiShot® targets. Available in a multitude of designs—from critters to bullseyes—these reactive targets provide a halo of color with every hit. Different colors mark distances from the X-ring so you know exactly where you've shot. Dial in fast, dial in right with Champion® VisiColor® or VisiShot®.

Few things are as annoying as clays that break upon release. That's because when a clay fails, it breaks your momentum, your rhythm and your concentration. So the next time you're at the range, trust Champion® to deliver predictable, reliable and professional flights every time you say "pull." Keep your focus, keep your rhythm and keep Champion® clays loaded in your thrower. And when the orange birds fly, shooters quickly realize that the most consistent flights come from Champion®. Our manual traps provide great opportunities for every trap enthusiast to get in on the action at an affordable price. Champion® traps are ultra reliable—throw after throw, shot after shot.

VANQUISH™ HEARING PROTECTION

Champion Vanquish™ Electronic Hearing Protection was designed from the ground up for the shooting sports. Each muff was acoustically modeled on gunshot reports to achieve the optimal balance of all day comfort and noise reduction. The electronic models all feature Safe Level Sound Compression Technology with a refresh time <1ms. Two Full Dynamic Range HD speakers ensure everything you hear is crystal clear. Omnidirectional microphones pick up everything around you, giving a natural sound while minimizing wind noises. Vanquish Pro Elite and Pro are Bluetooth®-enabled and have the ability to take and receive phone calls. The Pro Elite models take technology to the next level by incorporating rechargeable lithium-ion batteries (12-hour runtime) and active noise cancellation making sure unwanted ambient noises are eliminated.

Champion Shooting Bags are built to help deliver accurate round placement. All the bags are uniquely shaped and include features favored by Precision Rifle Series shooters. The bottom of each bag is covered with Tuff Hide, a synthetic material that prevents skidding and provides a stable shooting platform. Select models include elastic straps that hold the bag in place on the rifle, eliminating the need to adjust it between stations.
